GET STARTED WITH YOUR INTERACTIVE DASHBOARD

The analytical dashboard uses artificial intelligence to group risks by categories. This provides you with an overview of your risks, in real-time, and allows you to drill-down into the details with a click.

- 1. Device Health:** Real-time status of devices.
- 2. Violations:** Notifications when vehicles travel inside or outside specific areas.
- 3. Automated Impound Lots:** 17,000+ preloaded impound lots.
- 4. Last Reported:** Snapshot of last heartbeat.

- 5. Recovery Data:** Intuitive recovery workflow: on repo, payment reminders, starter disables and potential tamperers.
- 6. Usage:** Monitor excessive vehicle usage & possible commercial use that can drive down asset value.
- 7. Device Status:** Device management.
- 8. All Access:** Access entire device portfolio, regardless of GPS Provider.
