

Receive Risk Warnings – Instantly!

Advantage's smart platform provides real-time vehicle information and proactively sends notifications of high-risk situations to mitigate and prevent losses.

800-553-7031 | [AdvantageGPS.com/Smart-Notifications](https://www.advantagegps.com/smart-notifications)

PROACTIVE RISK MANAGEMENT

Advantage's advanced risk-mitigation technology continuously scrutinizes your portfolio, then sends real-time alerts when circumstances demand your attention.

Smart Notification Technology

Sends alerts for GPS device install or connection issues

Monitors vehicle's car battery life

Warns of vehicle abandonment or impound risks

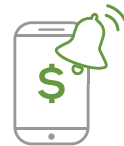

Alerts of potential device tampers

Creates custom geofence alerts

Warns of potential ridesharing

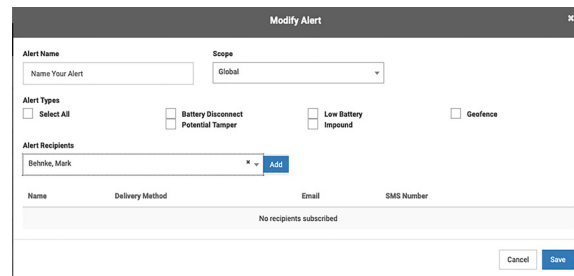

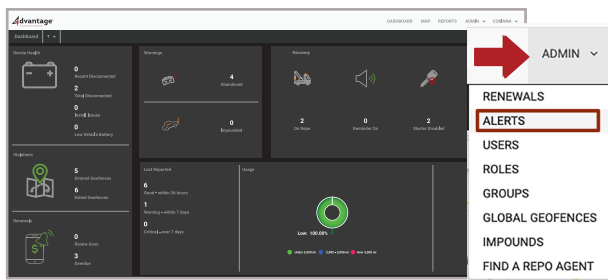

Sends subscription renewal notices

Get notified via dashboard, email, text or mobile app

How to Setup

- View Risks on Dashboard (auto-send Dashboard analytics to any mobile device)
- Go to Admin to setup notifications
- Select Alerts
- Add Alert

- Name your alert
- Select "Global" to apply to entire portfolio or "Vehicle" to apply to a specific asset (use the pulldown menu to choose the vehicle you want to assign the alert to)
- Use checkboxes to identify type of alert(s) you want to set
- Select "Alerts Recipients" who will be notified and hit save
