

WIRELESS
REVO 2.0
SmartStop

Now Powered by 2.0 Smart Technology
Perfect for High-Risk, Short-Term Management

Revo 2.0 SmartStop, powered by 2.0 smart battery technology, is now the most powerful wireless, battery-powered GPS device on the market AND the most intelligent tracker on the street. SmartStop captures and records every stop the collateral makes, plus it includes a new Turbo Track feature that accelerates recoveries.

Stay connected, double down on protection, and secure your assets with SmartStop.
